

# RoFoam Capabilities

This overview presents our standard product range. We can often develop custom solutions with specific densities and thicknesses to meet your requirements. Have a specific need? We're happy to work with you to find the right solution.

## RoFoam Roll

### Versatile & efficient

- Density range: 27 kg/m<sup>3</sup> - 200 kg/m<sup>3</sup>
- Thickness range: 4 mm - 18 mm
- Width range: 0,5 m - 1,5 m
- Colors: on request

## RoFoam Sheet

### Ready-to-use & adaptable

- Density range: 27 kg/m<sup>3</sup> - 200 kg/m<sup>3</sup>
- Thickness range: 4 mm - 18 mm
- Width range: up to 1,5 m
- Colors: on request

## RoFoam Block

### Stable & robust

- Available densities: 27, 40 & 60 kg/m<sup>3</sup>
- Thickness: 100 mm
- Width: 1,2 m
- Length: 2 m
- Colors: on request
- Individual blocks on request

## Converting possibilities

- Laminations (e.g. with self-adhesive layer)
- Individual lamination
- Splicing

# RoFoam by Schmitz Foam Supply

## Your partner in trusted XPE foam solutions

At Schmitz Foam Supply, we do more than supply foam. We build partnerships. With RoFoam, our high-quality chemically cross-linked polyethylene (XPE) foam, we help you create products that perform, last, and inspire. Lightweight, flexible, and reliable, RoFoam supports your products at every stage.

**We also make sustainability easy.** When we deliver your foam, we can collect your residual foam in one go. This saves you time and effort in disposing your residual product. It also reduces the amount of material waste and transportation required. We reuse your residual foam in a new foam product, promoting a circular economy and sustainable sport & play areas for athletes and children.
